

# MDR 4 S

## Pressure Switch MDR 4 S

3-phase  
Switching capacity 5,5 kW  
max. cut-out 16 bar  
3-pole (N.C.)  
Acc. to EN 60947  
From now on also with

### 4-way-flange

**Your  
pressure  
under  
control**

# MDR 4 S

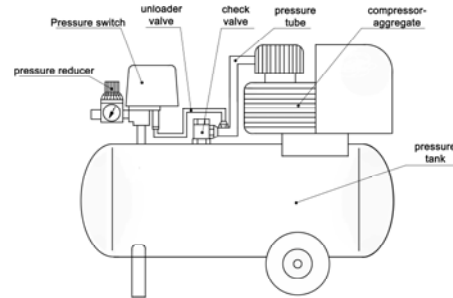

Most of the today's compressors are equipped with a combination of several components at or under the pressure switch.

## These components are:

- pressure reducer
- check valve
- unloader valve
- pressure gauge for tank pressure
- pressure gauge for output
- relief valve
- pressure output

## Standard design

In order to simplify the assembly and thus to also reduce the costs, the components mentioned above can be directly mounted at a MDR 4 with universal flange.

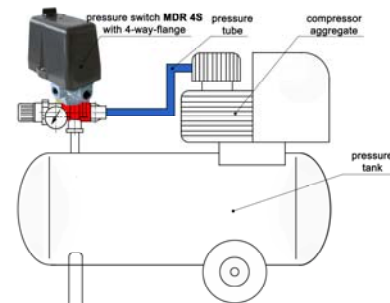

## Advantages are:

- easy assembly at the customer
- only on tank connection required

## NO NEED FOR:

- housing for pressure reducing
- housing for check valve
- tube for unloader valve

## MDR 4 with 4-way-flange

## Type overview MDR 4S
